Attn: Reviewing Engineer
Office of Engineering and Technology
Federal Communications Commission

Dear Sir/Madam,

The Type 1 Vega AIS AtoN Station is an AIS AtoN Station manufactured by Vega Industries Ltd, NZ. It uses fixed-access time division multiple access (FATDMA) techniques to access the AIS VHF data link.

The attached documents show that the Type 1 Vega AIS AtoN Station conforms to the relevant standards for AIS AtoN Stations including IEC 60230-2 and IEC 60945. The Type 1 Vega AIS device has been type approved by BSH and granted certification number BSH/4542/4322515/15. This device has been approved by the United States Coast Guard – see attached correspondence ref 2015-3387.

Please contact me directly if you require any further information to support this request. I can be contacted via email at John.Brook@vega.co.nz or by phone on +64 21 886 244.

Yours sincerely,

John Brook

Engineering Manager
